

10 March 2010

Ms. Helen Fulcher
Chief Executive
SA Environmental Protection Authority
GPO Box 2607
Adelaide SA 5001

Dear Ms Fulcher,

Re: Declaration of the Environmental Protection (Waste to Resource) Notice 2010.

Further to our discussion last Thursday (4 March 2010) I write to confirm our offer to work with your staff and other industry groups (e.g. the Waste Management Association) to develop a set of procedures to better define the operation of material recovery facilities sorting commercial and industrial waste.

As mentioned during our discussion we are keen to see the establishment of facilities that can regularly perform the separation required to meet the landfill bans detailed in Schedule 4 – Prohibited Landfill Waste and that we are concerned that without some certainty regarding performance landfills may become exposed to penalties if banned material is not completely removed.

Now that the EPP has been gazetted ALOA's South Australia's chapter – comprising IWS, TPI and Lucas Earthmovers – is keen to commence work immediately so that this matter can be resolved quickly and action put in place to develop the required infrastructure before the first bans come into force next year.

Should you have any queries in this matter please contact me on 0400 880 677 or ALOA on 03 8399 9514 / info@aloa.com.au.

Regards

Max Spedding
