Dear Mr Sweet

Thank you for your correspondence dated 24 March 2020 requesting that travel associated with the waste management industry be considered essential.

Please be assured that the Northern Territory Government is very aware of the need to ensure that those who service and contribute to the continued operation of our supply chain and essential services, must remain operational at all times for the benefit of the community. That is why all freight and logistics are currently considered an essential service in the Northern Territory, including travel associated with the waste management industry.

We understand this is a challenging time for all Australians and thank you for your continuing contributions to the Australian community. If you have any additional questions or concerns in relation to this matter, please contact the Department of Infrastructure, Planning and Logistics Emergency Operations Centre on (08) 8946 5077.

Yours sincerely
